(Director of Technical Education Mumbai, Maharashtra)

3) Hon'ble Dr. G.K. Kharate - Member, Governing Body SVIT Chincholi (Nominee S.P. Pune University)

Dr. G.B. Shinde welcomed all Members of Governing Body Present for the Meeting & requested the chairman to permit him to take up items on the agenda. He was permitted to do so.

Item No. 01:- To consider & confirm the Proceedings of the last Meeting of Governing body held on 25/03/2014

→ The minutes of last meeting of Governing body held on 25/03/2014 were read by the Principal Dr. G.B. Shinde and were approved after discussions.

Item No. 02:- To consider and approve academic and administrative report of the Principal.

→ The report submitted by principal for academic & Administrative activities was appreciated & approved with following suggestions

i. The number of guest lectures and industrial visits of students should be organized once or twice in a month.

ii. The efforts taken for placements of students were appreciated with a need to focus on training of students to make them competent to perform in industries and business.

iii. The goal setting of students based on syllabus of university should be done with the help subject teachers and mentors.

iv. The target oriented goals setting of faculty to improve the quality of results should be done.

v. Remedial measures should be taken to improve the results in the subjects whose results are unsatisfactory in the examinations held in Nov/Dec 2014.

vi Faculty development Program and students training Program should be conducted on regular basis to improve the academic performance.

Item No. 03 :- To consider efforts to give wide publicity on the achievements and be made regarding admission in FE & Direct second year admission for the academic year 2015 - 2016

→ The report submitted by Dr. G. B. Shinde, Principal was approved with following suggestions

It was suggested to take necessary efforts to give wide publicity on the achievements and strengths of the institute.

Item No:- 04:- Report on result of the Institute in the Savitribai Phule Pune University Examinations held in Nov/Dec. 2014
→ Results declared during this semester for the examination Nov/Dec. 2014 were presented by Principal. It was suggested to improve all clear results of second Year & third Year.

- i. The goal setting of students based on syllabus of university should be done with the help subject teachers and mentors.
- ii. The target oriented goals setting of faculty to improve the quality of results should be done.

Item No:- 5 To consider and approve faculty and staff requirements for academic year 2015-2016.

→ Requirement for faculty & staff for the academic year 2015-2016 was approved by committee.

Item No:- 06 Discussion approval for construction of dam under the rain water harvesting.

→ storage water can be utilised for watering of the plants & trees which are available in campus.

→ Due to stored water in dam, water will

Percolate in ground & hence the level of water in the earth will increase.
→ Hence the percolation of water level in well & bore-wells will increase.

Item No 07: - to receive and approve budget for the financial year 2015-2016
→ the budget for the year 2015-16 was discussed and approved in the meeting.

Item No 08: - to purchase new equipment in existing departments as per Savitribai Phule Pune University syllabus.
→ The purchase of new equipments as per the revised syllabus of Savitribai Phule Pune University was approved as per the provision made in budget.

Item No 09: - Any other matter with the permission of the chair.
→ The vision document of the institute should be prepared by the Principal and progress of the same to be presented in the next meeting of governing body.

The meeting was ended with vote of thanks by Dr. G.B. Shinde Principal Sir Visvesvaraya Institute of Technology Chincholi.

Principal
Sir Visvesvaraya Institute of Technology
Chincholi, Nasik-422102

Example of one activity successfully implemented

WATER DAM

One of the main agenda was construction of dam for water harvesting at SVIT campus, Sinnar. The implementation of work of dam construction started at AUG 2016 and almost all the work completed at JUNE 2017.

1. Location of Institute

The campus of Pravara Rural Education Society's **SIR VISVESVARAYA INSTITUTE OF TECHNOLOGY, Nashik** is situated at the South-west direction of Sinnar city near to Chincholi village on the Nashik- Pune Highway.

Data collection- As the Chincholi is located at 10 km from Sinnar city. Average annual rainfall for this area ranges between 500-750 mm per annum.

2. Dam Specification

Catchment area of dam -1, 21,450sq.m

Size of tank = 400ft X 27ft X (10.25) ft.

Capacity of Dam- 50 lac litre

Consumption of harvestable rainwater = 1.5 lac Lit/annum daily

Cost of Dam- = Rs. 9, 00, 000 /-

3. Safety features:-

Dams will fail if the structure is broken or suffers considerably harm. Dams may additionally fail slowly through siltation of the reservoir or loss of water through flow. If a dam fails because of structural weakness, it will cause intensive harm as well as fatalities and this could be avoided in the slightest degree prices. It's so necessary to watch signs of weakness like cracks, immersion or flow round the structure. Most dam's square measure designed with mechanisms to allow the reservoir to be down or perhaps drained within the event of such downside. Cracks and alternative fissures may be remedied through rock grouting – that involves pressure pumping of concrete combine into weak broken rock. little earth dams ought to be enclosed and therefore the geographic area shielded from harm thus on scale back siltation harm. Animals and folks shouldn't access water directly from the dam, however the planning ought to incorporate water off-take structures to reduce human traffic and sound. Communities should be trained on the acre, utilization and management of the dam.

4. Maintenance of earth dams

Earth fill dams need regular examination and maintenance. ~~Assessing~~ ^{Assessing} in nursing examination before spring runoff is essential to make sure the spill isn't blocked with snow or alternative

material. All blockages should be removed to forestall over topping and therefore the dam laundry out. Throughout runoff, further inspections ought to be dispensed to look at for signs of abrasion, spill blockages (ice or debris) or overtopping of the dam. Once the dam is freed from snow, a visible examination may be completed to assess the slopes for erosion, eutherian harm, flow or slumping. Burrowing rodents like beavers, muskrats and gophers ought to be off from the dam straightaway. All potential issues should be repaired as presently as attainable to safeguard the dam. Aspect slopes ought to be cleared of tree growth on an everyday basis.

5. Closing Remark

As per the higher as report, rain water gather has been already enforced for the faculty building. We have a tendency to square measure utilizing the water for agriculture, spring water recharge yet as for drinking functions with filtration and purification plant.
